

Seasonal Environmental Technician

Classification

This is a full-time Seasonal position (mid-April thru Sept. 2011), located in Juneau, Alaska.

Admiralty Environmental is looking for dynamic individuals to join the firm as seasonal Environmental Technicians in our Juneau, Alaska office from mid-April through September 2011. This position will be responsible for supporting a variety of projects that include environmental sampling, analysis, and project management for a variety of industrial clients in the cruise ship, mining, and wastewater treatment industries. This is an excellent opportunity for an entry-level environmental professional to work with a well-established and technically diverse group on challenging environmental water quality issues.

Key Duties

- Assisting on field sampling projects, including environmental sampling of cruise ships;
- Analyzing water samples and interpreting environmental chemistry data;
- Data entry and data validation;
- Interacting with clients and regulatory agencies,
- Assisting in report writing, and
- General office tasks.

Headquartered in Juneau, Alaska, Admiralty Environmental is a leader in water sampling, analysis, and project management for public and private clients. Our employees help Admiralty Environmental deliver innovative, practical, and technically sound results and solutions — helping clients meet increasingly stringent environmental regulations and manage their systems to operate in an environmentally sound manner. To fulfill this mission, Admiralty Environmental is seeking entry-level environmental professionals who have a passion for working on challenging projects that will grow their professional skills.

Job Requirements

Qualified candidate will have the minimum of:

- 1 years of undergraduate study in Geology, Biology, Chemistry, Environmental Sciences, or Engineering;
- Strong writing, communication, and computer skills;
- Ability to work in the field in industrial settings;
- Ability to work independently with limited supervision, as well as ability to work effectively as a part of larger teams. Frequent overnight travel will be required.

Applications are available on our website at: <http://www.admiraltyenvironmental.com>

Complete applications will be considered. Please provide phone and email contact information.
