

## Seasonal Environmental Technician

### Classification

This is a full-time seasonal position, located in Juneau, Alaska.

Admiralty Environmental is looking for dynamic individuals to join the firm as seasonal Environmental Technicians in our Juneau, Alaska office from April/May – September/October. This position will be responsible for supporting a variety of projects that include environmental sampling, laboratory analysis, and project management for a variety of industrial clients in the cruise ship, mining, drinking water, and wastewater treatment industries. This is an excellent opportunity for an entry-level environmental professional to work with a well-established and technically diverse group on challenging environmental water quality issues.

### Key Duties

- Assisting on field sampling projects (locally in Juneau, and throughout SE Alaska);
- Analyzing water samples in the field and laboratory and interpreting environmental chemistry data;
- Data entry and quality control tasks;
- Interacting with clients and regulatory agencies,
- Assisting in report writing, and
- General office tasks.

Headquartered in Juneau, Alaska, Admiralty Environmental is a leader in water sampling, analysis, and project management for public and private clients. Our employees help Admiralty Environmental deliver innovative, practical, and technically sound results and solutions — helping clients meet increasingly stringent environmental regulations and manage their systems to operate in an environmentally sound manner. To fulfill this mission, Admiralty Environmental is seeking entry-level environmental professionals who have a passion for working on challenging projects that will grow their professional skills. Compensation is \$22/hr, with opportunity for end of season bonus if terms of employment are met.

### Job Requirements

Qualified candidate will have the minimum of:

- Undergraduate coursework in Geology, Biology, Chemistry, Environmental Sciences, or Engineering
- Strong writing, communication, and computer skills, including clearly legible handwriting
- Ability to work in the field in industrial settings
- Ability to work independently with limited supervision, as well as ability to work effectively as a part of larger teams. Frequent overnight travel will be required. Must be 21 years or older.
- Current passport
- Reliable private transportation
- Proof of completed COVID-19 vaccination
