

Laboratory Assistant

Classification

This is an entry-level, full time/permanent position located in Juneau, Alaska. Part time opportunities may be available upon request.

Admiralty Environmental is looking for a dynamic individual to join the firm as a Laboratory Assistant in our Juneau, Alaska office. This position will be responsible for supporting a variety of projects including viral transport medium production, laboratory work, and project management for a variety of industrial clients in the cruise ship, mining, and wastewater treatment industries.

Headquartered in Juneau, Alaska, Admiralty Environmental is a leader in water sampling, analysis, and project management for public and private clients. Our employees help Admiralty Environmental deliver innovative, practical, and technically sound results and solutions — helping clients meet increasingly stringent environmental regulations and manage their systems to operate in an environmentally sound manner.

Key Duties

- Assist with viral transport medium production and packaging
- Sample receiving and client contact
- Bottle kit preparation
- Assist with laboratory analyses and organization
- General office tasks (scanning, filing, inventory, etc.)

Job Requirements

A qualified candidate will have the minimum of:

- High school diploma
- Positive attitude
- High level of focus
- Ability to work efficiently and with precision
- Desire to work in a team environment
- Proof of completed COVID-19 vaccination

To be considered for this position, please complete and submit an application. Available on our website at:
